AND STRIVE TO ACHIEVE GREAT SUCCESS FOR BOTH.

Profile

Powertek delivers a broad portfolio of information technology and business enabling solutions that optimize enterprise results for customers in civil government, defense, intelligence, homeland security, law enforcement, and public health sectors. We employ a world-class team of experts with experience in large-scale, mission-critical IT implementation.

Through a combination of strong domain expertise and best practices, we deliver creative solutions and advanced technologies that solve complex challenges, add value to our customers' business needs, and contribute to missions of national significance.

Our solution areas demonstrate the range of our experience:

- Systems Architecture and Engineering
- Performance Management and Data Analytics
- Enterprise Technology Services
- Cyber Security and Information Assurance
- Management and Business Process Consulting

Powertek works openly with customers to identify their unique needs and tailors solutions that reliably deliver innovation, cost efficiencies, and measurable results. Through a combination of best practices involving people, processes, and technology, we deliver solutions that fit and add value to our customers' business requirements.

Quality Excellence

Through Powertek's Quality Management System (QMS), we proactively assess project performance and continually improve service delivery and product quality throughout our organization.

We employ disciplined, repeatable, and predictable processes based on industry best practices that emphasize risk management, change control, and full lifecycle issue management.

Powertek also practices earned value management; we use an automated earned value management system (EVMS) that received DCAA's highest rating in a recent audit, ensuring transparency and optimal performance tracking.

We Deliver What We Promise.

Our People

We are committed to creating a formidable, “*One Team*” company where diversity contributes to the Powertek vision and core values. We respect and leverage each person’s individuality and recognize and celebrate the talent, skills, backgrounds, experience, and expertise of all of our employees. We believe that diversity of backgrounds contributes to fresh and different ideas and enhances our ability to provide innovative solutions to our customers.

Powertek places strong emphasis on ensuring that our employees have industry-recognized professional certifications. To date, more than one-third of our staff members have received such certifications as ITIL Foundation or Practitioner; Project Management Professional (PMP); and Certified Information Systems Security Professional (CISSP) through our Professional Certification Program.

T Training

Powertek's success is driven by employees with the passion, energy, and determination to provide our customers with extraordinary services.

Our professional development program is designed to build staff technical expertise, enhance knowledge, and facilitate interpersonal skills and overall business performance.

We also offer generous tuition reimbursement, formal training classes, on-the-job training, and mentorship opportunities.
